YOUR VERY OWN BARREL

We are offering 100 bespoke casks to fill and own in a brand new ownership program: Century Drop (see what we did there?!). This is an opportunity to be part of a British Rum legacy, joining the coolest club of people that know! As well as a barrel full of your very own Rum, you will receive a distillery tour for 2 with the head distiller at a time of your choosing to get to know the DropWorks Distillery, where your liquid will be ageing, allowing you to see your cask in real life and learn more about the quality of the liquid inside. We will send you a sample bottle of your Rum once a year so you can monitor its progress. Interested? Well read on!

THE RUM

Quality is something that is never compromised on at the DropWorks Rum Distillery, so you can be sure that you are filling your barrel with the most premium of Drops. Choose from one of the options below (each one a Molasses based Rum at 63.5% ABV), or enquire for bespoke requests:

- Option 1: Delicate , Honey , Spice
Double Distilled on our bespoke copper pot and 8 plate column. Filled into a Bourbon whiskey cask where the end result will be spirit forward with subtle hints of vanilla and honeycomb.
- Option 2: Aromatic, Ripe, Tropical
Fermented in a unique process that encourages intense aromas. Distilled on our bespoke double retort. This liquid will take time to age in a bourbon cask and will result in a complex Rum with aromas of intensely ripe tropical fruit.
- Option 3: Indulgent, Raisins, Vanilla
Same liquid as Option 2, but introducing the STR cask (a Shaved, Toasted and Re-charred wine barrel). This cask speeds up the maturation process and adds a real intensity of wood and dried fruit notes, making a unique DropWorks signature Rum that is full flavoured and extremely indulgent.
- Bespoke Offering. Other options may be available subject to availability, at an additional charge - please speak with the team if there is something specific you have in mind.
